

Project : Supply, Delivery and Installation of One (1) Unit Water Purifying System as per attached detailed specification:

Approved Budget for the Contract: Php300,000.00

Description	Specification
Water Purifier	One (1) Unit
Voltage	AC 220V-60HZ
Power Rating	120W
Suitable Water Pressure	0.1-0.35Mpa
Operating Pressure	0.4-0.6Mpa
Pure Water Flow	1.5L/min
Inlet temperature	4-45°C (refer to CB/119249-2003)
Maximum Inlet Water TDS Value	<1000PPM
Flushing Method	Auto Flush
Electric Shock Protection type	Type II
Suitable Water Quality	Municipal Tap water meeting the GB
Others:	
Stainless sink (fit to the unit)	1 unit
UV Light 6 GPM	1 set
Automatic Voltage Regulator, Heavy duty and compatible to the unit	Heavy Duty

Inclusions:

- a. Site Design, initial & final inspection, and layout supervision
- b. One (1) lot Installation of equipment
- c. Consultation and training of personnel
- d. Actual equipment training and orientations
  
- e. Freight and/or transport to site of machines, fares, meals, and accommodation of services technicians in case of overnight or the duration of the installation and commissioning.
- f. One (1) year full warranty on parts and service (except normal wear and tear).
- g. Water pumps to have six (6) months warranty
- h. With service center in Baguio City and a service technician on call for immediate repair or technical assistance.
